PROFESSIONAL SUMMARY

CDAC PG-DAC graduate with a B.Tech in Artificial Intelligence and Data Science, specializing in Java Backend Development. Hands-on experience in developing RESTful APIs and microservices-based applications using Java, Spring Boot, Spring Security and MySQL. Familiar with JWT authentication, React.js integration, and Generative AI integration using Gemini API. Strong understanding of Object-Oriented Programming, DBMS, SQL, and backend application development.

EDUCATION

- **CDAC (Know It)** **2026**

  Postgraduation Certification in Advanced Computing *Grade: 74.68* *Pune, India*

- **CSMSS Chh. Shahu College of Engineering** **2021 – 2025**

  Artificial Intelligence and Data Science *CGPA: 7.88* *Aurangabad, India*

- **Janata Mahavidyalaya** **2021**

  HSC Maharashtra State Board *Grade: 89%* *Chandrapur, India*

SKILLS

- **Programming Languages:** Java, SQL, JavaScript, Python
- **Database Systems:** MySQL, DBMS
- **Java Technologies:** Core Java, Spring, Spring Boot, Spring Security, Hibernate, JPA
- **Frontend Technologies:** HTML, CSS, JavaScript, React.js
- **Tools and Platforms:** Git, GitHub, Maven, Postman, VS Code, Spring Tool Suite

PROJECTS

- **WorkPlus – Workforce Management Platform** **Aug 2026**

  Tools: [Java, Spring Boot, REST API, Microservices, React.js, MySQL, Spring Security, JWT, Generative AI, Git/GitHub] [Code]

  - Developed a role-based workforce management platform supporting Admin, HR Head, Manager, and Employee roles for project management, task allocation, attendance, and timesheet workflows.
  - Developed RESTful APIs using Spring Boot and Microservices architecture, separating authentication, business operations, transactions, and AI assistant modules.
  - Implemented secure authentication using Spring Security, JWT, BCrypt password hashing, and role-based authorization.
  - Integrated MySQL with Spring Data JPA and Hibernate to manage users, projects, employee assignments, tasks, attendance, and timesheet records.
  - Integrated a Generative AI assistant using Gemini API to answer employee task-related queries using authenticated employee task data.
  - Developed React.js dashboards and integrated backend services through REST APIs.

- **EduTrack: [Education-focused attendance tracker]** **Jan 2025**

  Tools: [Spring Boot, Java, Hibernate, MySQL] [Code]

  - Developed RESTful APIs to manage students, subjects, faculty, and attendance records.
  - Implemented CRUD operations for attendance management and maintained structured data access.
  - Implemented role-based access for Admin and Faculty to secure application operations.
  - Designed entity relationships between Students, Subjects, and Faculty using Hibernate annotations.

CERTIFICATIONS

- **NPTEL Programming in Java** — *IIT Kharagpur*
- **HTML 5** — *Infosys | Springboard*
- **NPTEL - Joy of Computing using Python** — *IIT Madras*
- **Fundamentals of Deep Learning** — *NVIDIA*
